24	:	6	=	4
30	:	6	=	5

A house-shaped card with a yellow roof, a brown chimney, and a yellow circle with the number 3. The body of the house is divided into five horizontal sections, each containing a math problem.

18 : 3 = 6

21 : 3 = 7

24 : 3 = 8

27 × 3 = 9

30 × 3 = 10

A house-shaped card with a teal roof, a teal chimney, and a teal circle with the number 2. The body of the house is divided into five horizontal sections, each containing a math problem.

12 : 2 = 6

14 : 2 = 7

16 : 2 = 8

18 : 2 = 9

20 : 2 = 10

A house-shaped card with a green roof, a green chimney, and a green circle with the number 1. The body of the house is divided into five horizontal sections, each containing a math problem.

6 : 1 = 6

7 : 1 = 7

8 : 1 = 8

9 : 1 = 9

10 : 1 = 10

A house-shaped card with a purple roof, a purple chimney, and a purple circle with the number 6. The body of the house is divided into five horizontal sections, each containing a math problem.

36 : 6 = 6

42 : 6 = 7

48 : 6 = 8

54 : 6 = 9

60 : 6 = 10

A house-shaped card with a yellow-green roof, a yellow-green chimney, and a yellow-green circle with the number 5. The body of the house is divided into five horizontal sections, each containing a math problem.

30 : 5 = 6

35 : 5 = 7

40 : 5 = 8

45 : 5 = 9

50 : 5 = 10

A house-shaped card with an orange roof, an orange chimney, and an orange circle with the number 4. The body of the house is divided into five horizontal sections, each containing a math problem.

24 : 4 = 6

28 : 4 = 7

32 : 4 = 8

36 : 4 = 9

40 : 4 = 10

A house-shaped card with a pink roof and a purple border. A chimney with grey smoke is on the left. A circle in the roof contains the number 7. The body of the house contains six division problems, each on a line with a thick black horizontal separator below it.

7

$$0 : 7 = 0$$
$$7 : 7 = 1$$
$$14 : 7 = 2$$
$$21 : 7 = 3$$
$$28 : 7 = 4$$
$$35 : 7 = 5$$

A house-shaped card with a yellow roof and a yellow border. A chimney with grey smoke is on the left. A circle in the roof contains the number 8. The body of the house contains six division problems, each on a line with a thick black horizontal separator below it.

8

$$0 : 8 = 0$$
$$8 : 8 = 1$$
$$16 : 8 = 2$$
$$24 : 8 = 3$$
$$32 : 8 = 4$$
$$40 : 8 = 5$$

A house-shaped card with a blue roof and a blue border. A chimney with grey smoke is on the left. A circle in the roof contains the number 9. The body of the house contains six division problems, each on a line with a thick black horizontal separator below it.

9

$$0 : 9 = 0$$
$$9 : 9 = 1$$
$$18 : 9 = 2$$
$$27 : 9 = 3$$
$$36 : 9 = 4$$
$$45 : 9 = 5$$

A house-shaped card with a green roof and a green border. A chimney with grey smoke is on the left. A circle in the roof contains the number 10. The body of the house contains six division problems, each on a line with a thick black horizontal separator below it.

10

$$0 : 10 = 0$$
$$10 : 10 = 1$$
$$20 : 10 = 2$$
$$30 : 10 = 3$$
$$40 : 10 = 4$$
$$50 : 10 = 5$$

A house-shaped card with a pink roof and a chimney. The number 7 is in a circle on the roof. The body of the house contains five rows of division problems, each separated by a thick black horizontal line.

7

$42 : 7 = 6$

$49 : 7 = 7$

$56 : 7 = 8$

$63 : 7 = 9$

$70 : 7 = 10$

A house-shaped card with a green roof and a chimney. The number 10 is in a circle on the roof. The body of the house contains five rows of division problems, each separated by a thick black horizontal line.

10

$60 : 10 = 6$

$70 : 10 = 7$

$80 : 10 = 8$

$90 : 10 = 9$

$100 : 10 = 10$

A house-shaped card with a blue roof and a chimney. The number 9 is in a circle on the roof. The body of the house contains five rows of division problems, each separated by a thick black horizontal line.

9

$54 : 9 = 6$

$63 : 9 = 7$

$72 : 9 = 8$

$81 : 9 = 9$

$90 : 9 = 10$

A house-shaped card with a yellow roof and a chimney. The number 8 is in a circle on the roof. The body of the house contains five rows of division problems, each separated by a thick black horizontal line.

8

$48 : 8 = 6$

$56 : 8 = 7$

$64 : 8 = 8$

$72 : 8 = 9$

$80 : 8 = 10$
